

HANDBUILT CERAMIC LAMPS BY JIM WEBB

Each lamp is made to order by Jim Webb who signs and numbers each piece.

Four-sided Lamps: Two distinct incised patterns decorate opposing sides of this series. Keep in mind there are many more base/shade combinations than are shown on the website. If you would like assistance in choosing a combination, please don't hesitate to call or email for a consultation.

Lead times vary, but currently each order will take approximately eight to ten weeks to complete.

Four-sided lamps are wired for one three-way bulb. Maximum suggested wattage for incandescent bulbs is 100w for Lokta (handmade paper), 150w for mica. Compact florescent bulbs produce less heat and do not have wattage restrictions.

A 50% deposit is requested when an order is placed with the balance due prior to shipping. Shipping and handling costs are 7% of order for one piece, 4% for two or more pieces. Orders will be shipped via FedEx Ground.

There is a two-week grace period for lamps returned undamaged.

Six-sided Lamps: Glazing and decoration for this new format continues to evolve. Please call or email for available options. The 20" size is priced at \$1250, the 22" size at \$1350.

	<u>22 inch lamp</u>	<u>26 inch lamp</u>	<u>30 inch lamp</u>
<u>Prices – Four-sided Lamps</u>			
with Mica Shade	1250.	1400.	2000.
